MYSORE CITY MUNICIPALITY.

REPORT ON THE ADMINISTRATION OF THE MYSORE CITY MUNICIPALITY FOR THE YEAR 1945-46.

IMPORTANT EVENTS DURING THE YEAR.

The year was one of important and interesting events. Principal events of the year are summarised hereunder:

1. The Festivities connected with the Birthday and the Dasara were as usual conducted with great eclat. The roads in the City were kept clean and beautifully decorated and special sanitary arrangements were made to keep the City scrupulously clean. The Exhibition arrangements during the year also attracted the people. There was a large concourse of people from all parts of the both inside and outside the State and as many as two lakhs of people had gathered on the occasion. Special arrangements had been made to provide necessary amenities to the people on the occasion.

On the last day of the Dasara, His Highness's Procession went in the New Bannimantap Road which was greatly improved and rendered fit for the occasion. Ample scope was provided to have a clear view of the Procession by the public without difficulty. Besides this a number of tents were pitched up on the Shamiana in the Town Hall compound near the Statue Square and accommodation provided to seat the ladies and gentlemen to view the Procession. Arrangements were also made to seating college girl students in the Town Hall compound during the Procession.

The Municipal Councillors assembled at the Municipal Pandal near the Statue Square and submitted their Loyal felicitations and offered flowers to His Highness the Maharaja on both the Procession days.

It is a matter for great rejoicing that our Beloved Sovereign His Highness the Maharaja of Mysore was honoured with the title of 'G.C.B' by His Majesty the King Emperor on the New Year Day. In connection with this, the Municipal Council convened a Special meeting on the 28-1-1946 and passed the following resolution.

'This Council respectfully submits for the gracious acceptance of His Highness the Maharaja of Mysore, our Beloved Sovereign, their Loyal felicitations on the exalted title of 'G.C.B' conferred on His Highness by His Majesty the King Emperor.'

The following important personages visited the City during the year:-

1. January, 45:	His Excellency the Governor of Madras.
2. August, 45:	Visit of His Excellency the Commander in Chief.
3. Feb.45.	Lt.Col.C.K.Daly, C.S.I.,C.I.E., National Savings Commissioner, Govt. of India.
4. Sept.45.	Sir S.V.Ramamurthy, Adviser to His Excellency the Governor of Madras.

The Council passed condolence resolutions on the demise of the following distinguished personages:-

1. Sjt. Subhas Chandra Bose.
2. Sait Mohandas Tulsi Das who donated a sum of Rs.15,000/- for the construction of the Womens Hospital at Chamundipuram.
3. K.N.Venkatakrishniah, Ex.Municipal Councillor.
4. Rt.Hon.V.S.Sreenivasa Sastri

ADMINISTRATION.

With a view to have more efficient supervision over the work of octroi Superintendent an equal and independent status the Octroi and Revenue Sections were bifurcated and the same was sanctioned in G.O.No.L.3341-Ml.11-45- dated 27-10-1943. Similarly for the better supervision of the Municipal Engineering works, two separate Assist Engineers were appointed, one to look after the City Improvement Trust Board and the other to look after e

sively the Municipal Engineering works, vide G.O.No. L.8830-3/Ml.11-45-122 dated 23-2-1946.

The Council also sanctioned the appointment of a Head Clerk on Rs.50-2-60 to the Health Officer and also a Steno-typist on Rs.40-2-50. They have also recommended the appointment of a Steno-typist on Rs.40-2-50 to the Municipal Engineer.

The Revenues of the Municipality have increased very much at present and the expenditure has also gone up very high but the staff remained the same except for slight changes. The work in the several sections of the Municipality has increased enormously. The work in the Council section has become particularly high as would be seen from the following figures:-

Year.		No.of subjects considered.
1940-41	...	608
1941-42	...	1057
1942-43	...	892
1943-44	...	942
1944-45	...	1104
1945-46	...	1243

Besides, this, a number of sub-committees have been formed adding to the work. Modest proposals for the revision of the staff of the Head Office have been submitted to Government and orders thereon are awaited.

The work in all the sections has been considerably hampered by the posting of experienced hands to Food Supplies and other Departments and the new recruits appointed are not of much service. Sufficient number of hands have not been assigned to this Unit. Consequently, available local candi-dates of the Backward communities had to be appointed temporarily, who ~~[illegible]~~ however did not stick on to the jobs ~~[illegible]~~ for long. It therefore resulted in considerable overwork on the old hands. By systematic checking of their work, the work has however been kept

is called for and reviewed and strict instructions are being issued to clear arrears.

During the year special attention was paid for providing greater amenities to the rate-payers in all important matters which can be briefly summarised as follows:-

I. Water-supply: There was intermittent water-supply in the City. To improve this, the installing of a 350 H.P. Motor Pumping set at Belagola was sanctioned at a cost of Rs.54,087/- and this was approved in G.O.No.L.2206/M1.67-44-6 dated 19-9-45. The Special Committee appointed by Government for the improvement of water-supply as part of the Postwar Reconstruction recommended the launching of a short-term range scheme costing Rs.6,64,000/- for the immediate improvement of water-supply to the City and this was sanctioned by Government in their order No.L.P.3674-6/M1. 67-45-4 dated 12-11-45. The Government have generously agreed to bear half the cost of the scheme as a donatic by Government to the Municipality and to advance the other half as a loan to the Municipality to be repaid in 20 equal instalments at 3½% interest.

II. Milk-supply: With a view to improve the milk supply to the citizens the Council resolved to open and maintain a Dairy Farm as an adjunct to the Sewage Farm, and approached the Government for a loan of Rs.30,000/- Government in their Order No.L-10737-9/M1.194-44-2 dated 28-4-45 have sanctioned a loan of Rs.30,000/- carrying an interest of 2% repayable in 10 annual instalments. The Superintendent Veterinary and Animal Husbandry Services, has been requested to supply 6 Sindhi cows and 6 Murrah Buffaloes to start wi He has not yet got them. As soon as these cattle are received the Dairy will be started. A dairy cattle shed a a cost of Rs. 6300/- has been constructed in the Municipal Farm.

III. Food Rationing: The Rationing system intu into the City in December 1943 was in force during the

under report and rationed articles were issued to the residents of the City through the several depots opened in all the Mohallas for the purpose on Ration cards. The President City Municipal Council, continued to be the Chief Rationing Officer. On the special representation of the Council, arrangements were made with the Food Supply Department for the sale of Tur Dhall and Bengalgram dhall to the public. Rationed articles were supplied to the Municipal staff including the sweepers and scavengers through the Municipal Co-operative Stores. A few officials of the Health and other sections are working as part-time officials of the Co-operative Stores. As the work, is increasing, the Managing Committee of the Co-operative Stores is desirous of having a wholetime paid Secretary and a couple of clerks, to lookafter the work of the Society and to issue the rationed articles to the staff on all days as in the Government Rationed depots

XIV. A Sub Committee has been formed for considering the question of opening Nutrition centres where cheap and healthy cooked food will be available for the public

V. Poor Feeding. As a result of rationing, the condition of beggars and destitutes in the City became hopeless as they could not get alms as before. With a view to afford them relief, a poor feeding committee was formed in 1944 which is carrying on philanthropic work. A monthly grant of Rs.2,400/- is being made graciously by His Highness every month, and the indigent poor are being fed every day under the supervision of the Revenue Officer. Every day 1100 to 1200 poor people are being fed. Besides this, rice doles are being given to 400 poor families. A sum of Rs.29,674 were spent for the purpose. The Municipality contributed a sum of Rs.250/- per month for the distribution of rice dole to the poor during the year.

VIII. Distribution of clothing to the poor: Mr. M.L.Naga of Mysore donated Rs.500/- for providing the disabled people

in this City with dhoties and sarees. The President distributed the cloth to the poor at the Municipal offices on Monday the 26th December 1945.

VII. Feeding of the poor students. Consequent on rationing many poor school students who were getting their food in the homes of the citizens. on the system of being fed once a week or by daily begging, were stranded and they had almost to give up their studies. The Municipality stepped into the breach and made an appeal to the public for donations to afford food to these students. With the generous response from the public and the co-operation of the prominent Hotel-keepers in the City, 85 students were given boarding at the several hotels in the City at a concession rate of 10 rupees per head per month during 1944-45. During 45-46 also arrangements were made for the boarding of 76 students in the several hotels. The thanks of the Councillors are due to the several donors and to the Proprietors of the hotels for their help.

VIII. Fuel supply to the City: The supply of fuel to the City became very acute in 1944-45 and the Council constituted a sub-committee of the Council. with the Dist. Forest Officer also as a member, to concert measures for the supply of adequate fuel to the public at a cheap rate. The Food Supply Department placed 15 lorries at the disposal of the Municipality. 7 lorries were sold to fuel contractors and 8 lorries were leased for hire to some others on condition that they should sell fuel at 4 mds., a rupee into Fair Price Depots in the several mohallas of the City. Accordingly fuel is being sold. This together with the fuel got by licensed private shop-keepers has enabled us to tide over the difficulty to some extent. In the Forest Woodyard there is always a stock of 500 tons of fuel for emergencies. Proposals for the supply of charcoal at a cheap rate are being considered.

IX. Housing Problems: Housing of the population is one of the most important problems engaging the attention of the Council especially the housing of the poor and the sweepers of the Municipality. A Model House fund was started in the year 1941-42 under which houses are being built and sold. During the year. 34 houses were built in K.R.Vanam and sold. A sum of Rs.1.51.814/- being the realisations by the sale of model houses during 44-45 and 45-46 held in deposit was credited to 'Model House Fund The construction of 16 model houses in K.R.Vanam was completed and 7 houses in Ramanuja road were under construction. A sum of Rs.27.968/- was spent for the purpose. Sweepers quarters were constructed at Kesare at a cost of of Rs.2730/- and a school for the use of the children of the sweepers and Harijans was constructed at Jalapuri at a cost of Rs.2.100/-. The City Improvement Trust Board is also actively engaged in the formation of sites. The further layout of Paduvarahally. Yadavagiri and Bannimantap extensions continues and some sites for the construction of model houses were also allotted in Chamundi Extension. 492 sites were sold to the public by the Trust Board during the year. 12 model houses in Ramanuja Road were completed and 26 sweepers quarters in Jalapuri costing Rs.23.950/- were nearing completion.

X. Slum clearance. 8 properties in Nazarbad Mohalla. 3 in Lashkar and 1 in Fort were acquired during the year. The first and second stages of the formation of a road from the Old Elgin Fountain to the District Offices is under progress. By this. the worst part of the slum area in Devaraja Mohalla will be cleared. A sum of Rs.14,827/- was spent for slum clearance during the year.

XI. Underground Drainage: Laid out by the City Improvement Trust Board. Laying of sewers in the 28th block in Veeranagere was taken up by the Trust Board and Rs.14,092 spent on the work.

XII. Public Bath: Special attention was given to the net cleaning of the City. For this purpose. 60 additional sweepers were sanctioned by the Council and approved by Government in their Order No.L.6609-10/M1.11-45-48 dated 11-1-1946. The Council have also sanctioned an additional lorry for the prompt removal of rubbish. The replacement of rubbish carts by motor lorries for prompt and economical work is under consideration. The President visited the Mohallas regularly on Wednesdays and Fridays with the Health Officer and the Municipal Engineer and issued suitable instructions to get the defects noticed, rectified and care was taken to see that the Inspections were promptl and thoroughly carried out. The Municipal Councillors went round the Mohallas on every Sunday with the Municipal staff and gave suitable suggestions for better cleaning etc. Intensive cleaning drive continues in the city every Saturday afternoon as usual.

The question of appointing mobile police to prevent the commission of nuisance in streets and open spaces and to remove encroachments etc., is under consideration. This staff was since sanctioned.

XIII. Control of Epidemics. With a view to prevent the periodical outbreak of plague, a cyano-gassing establis ment was sanctioned and 28,847 houses were fumigated. The Council felt that systematically anti-plague work had to be done to prevent the occurrence of plague and has since sanctioned a permanent gang of 3 hands to each of the 7 mohallas for attending to this work. A Tuberculosis survey has also been undertaken. 2 Sanitary Inspectors, 2 Asst.Sanitary Inspectors and 18 fieldmen are detailed for mosquito control work. and Malaria has been brought under control. Special attention was also paid to the destruction of stray dogs and the catching of monkeys.

XIV. Amenities to the staff. As detailed above, houses for sweepers, are being built rapidly. It is

proposed to build sweepers quarters in all the Mohallas so that they may reside nearer the place of their daily work and thus avoid long journeys to and from their homes. Rationed articles are being distributed to them through the Municipal Co-operative Stores, and they have been recently given the benefit of the Provident Fund Scheme and Maternity and sick leave. Their pay also has been fixed on a time scale of 10-1-15 which is not the case with the menial staff of the Municipality.

Sites have also been allotted to the officials of the Municipality and the Trust Board in the several extensions of the City for such of those who applied for the same. The Municipal and Trust Board Co-operative Society and the Health Department Co-operative Society are doing good work by affording financial help to the staff when needed.

XIV. Beggars Relief: The Minister for Revenue and Law Mr.O.Pulla Reddy, M.A.,I.C.S., was pleased to enquire during his visit in February 1945 if there was a Home for Destitutes and gave instructions for starting one such with the help of the philanthropic public and the Municipal Council. At a meeting of the Municipal Councillors and other philanthropic gentlemen of the City, convened on the 26th March,45, a small Committee for starting an Ashakta Poshanalaya consisting of 12 members was formed, the President of the Municipality being Chairman thereof and the Vice-President the Convenor. Action was taken thereon to collect funds from philanthropic gentlemen and a sum of Rs.27,826/- had been collected by December 1945. Out of this, a sum of Rs.16,000/- was in Municipal Deposit and the remaining Rs.11,826/- in Mysore Bank in the name of Asaktha Poshanalaya.

Consequent on the fortation of the Central Relief Committee for the Prevention of Beggary in Mysore State as per Government Notification No.L.4146/EM.3-45-5 dated 24-11-45 constituted by Government in exercise of the powers

conferred by Section 5 of the Act for Prohibition of Beggary an Inaugural meeting of the Municipal Councillors and the leading and philanthropic citizens of Mysore was convened on the 30th November, 45 when the Chairman of the Central Relief Committee constituted as above presided. After discussions regarding the functions of the Central Relief Committee and the Local Relief Committee to be formed under its aegis, a local Committee consisting of 24 members was formed.

WORKING OF THE COMMITTEE.

(1) Meetings. The Committee had subsequently met thrice on 3-1-46, 15-2-46 and 18-3-1946 to concert measures for the starting of the Relief works under the Beggary Relief Act. The Sub-Committee formed by the Local Relief Committee had also met once on 8-3-46 for discussing the working plan for carrying out the provisions of the above Act.

The following is the progress of work done by the above Committee so far:-

(i) Building for the Relief Centre. The Municipal Council kindly placed their building on the Bannimantap road for the Relief Centre. As this was not suitable, action is being taken to construct a suitable building. An extent of acres is being acquired and the Central Committee has been requested to grant a sum of Rs. for the building purpose.

(ii) Transfer of Funds from the account of Ashaktha Poshanalaya to the Local Relief Committee.

As per Municipal Council resolution No.649/45-46 dated 7-2-46, agreeing for the transfer of funds from Ashakta Poshanalaya to the credit of the Local Committee, a fresh account was opened with the Mysore Bank, the old account being closed a sum of Rs.12,864-6-0 incluling the interest and the donations of Rs.1025 received subsequent

to the date of resolution now stands in the account of the Chairman, Local Relief Committee for the Prevention of Beggary in Mysore City.

The Local Committee has approved with slight modifications the working plan placed by the Sub Committee for the initial equipment and the establishment required for starting and maintaining the same. A sum of Rs.2,500/- in the aggregate is resolved to be incurred for the following equipments.

Furniture ..	...	Rs. 500/-
Vessels ...	...	Rs.1000/-(20 sets for males
Clothings ...	...	Rs. 500/- 10 sets for fe-
Coverings and mats	...	Rs. 500/-males with one spare set for each)
Total	...	Rs.2500/-

The recurring expenditure of the establishment required for the same is as follows.-

(1) A retired Medical man to act as Superintendent on Rs.50-5-75+Rs.15/-	...	i.e., Rs.69/- on average + 15/-
(2) One clerk with knowledge of accounts: 30-3-60	...	49/- "
(3) 2 ward boys and one Avah on 15-1-20		18¾x3 56¼
(4) One cook on Rs.30/- and the other on Rs.20/-		50/-
(5) One sweeper and one scavenger on Rs.10-1-15	..	13¾x2 27½
		266¾+15 CA. or 267+15/- =Rs.282/-p.m.

At the request of the Local Committee, the Vice-President and the Municipal Engineer had been to Bangalore to study the arrangements at the Ashakta Poshaka Sabha working as a Receiving Centre in Bangalore City during the last week.

The question of introducing the Act is under the consideration of the Central Relief Committee to whom a reference has been made.

Conclusion. The Municipal Council has been anxious to provide all possible civic amenities such as maximum public health service, adequate water-supply, well maintained roads both main and interior. construction of drains and culverts, children's play-grounds. radios, establishment of Maternity Homes, Milk Centres, Beggars' Relief Poor Feeding, providing of houses, efficient public conveyance and medical relief, civic propaganda work, encouragement of physical culture, nursery schools, etc. They have also created better facilities to the staff in the way of housing, co-operative stores, and co-operative banking, and in certain cases especially to the sweepers by revision of pay and creating Provident Fund Scheme. The area of the City has increased from 12 75 sq-miles to 13.16 sq-miles, by the inclusion of Kumbarkoppal, Khonachikoppal and Vaddarapalya villages. The demand for still better civic amenities in the shape of more lights. underground drainage better fuel and milk-supply, and better houses, is increasing The cost of materials and labour has gone up, thus raising the normal expenditure of the Municipality. Though the revenue of the Municipality has increased under Octroi and Toll and also miscellaneous items such as Registration fees at 1% on the Transfer and Mortgage of ~~sat~~ properties, the rise is very insignificant compared with the daily growing expenditure. The Council have appointed "Ways and Means" Committee, to go into the question of improving the finances of the Municipality so that the normal commitments may be met. The grant of dearness allowance to the Municipal employees has been the main item of the enhanced expenditure, amounting to Rs.1,79,000 upto the end of 45-46. The further rise in the rate of dearness allowance from 1st July 46 has made the situation worse. The commitment of the Municipality in this behalf. per annum is Rs.2,68,000 This amount cannot be met from the normal revenues of the Municipality nor has it got any special reserves or invest

ments on which to draw. The question of imposition of any additional tax to meet this abnormal and unforseen expenditure is not possible now. The only course is for the Government to come to the rescue of the Municipality in this crisis by granting it a special contribution to meet the expenditure on account of dearness allowance and thus help it to tide over the difficulty.

PART II.

Constitution and working of the Municipality.

1. Municipal Boundary and area. The area of the Municipality during the year 43-44 was 12.75 sq-miles. As per Government Notification No.L.7100/M1.95-42-13 dated 17th January 1944, the Municipal limits were extended and certain portions of the villages of Kumbarakoppal, Thonachikoppal and Vaddarapalya were included within the City Municipal limits. The present area of the City is 13.16.

This year also they passed a similar resolution at a Special Meeting held on 4th August 45, and the same was forwarded to Government. No orders have yet been received in the matter.

Vice-President.

Mr.T.Venkataramaniah entered upon his duties as Vice-President for a period of one year from 3rd January 1945, and continued as such till the end of 3rd January 1946, when he was succeeded by Mr.A.Krishnamurthy Rao who was declared duly elected at the Special meeting of the Municipal Council held on the 12th December 45, after the observation of the several formalities, approved by Government in their order No.L.5971-M1.42-45-46 dated the 3rd January 1946.

The following powers and duties were assigned to the Vice-President under Section 26(1) of the Mysore City Municipalities Act, subject to the general control of the President.

I. Powers of supervision over

a. Hackney Carriage Section.
b. Water Revenue Section.
c. Sewage Farm.

II. Signing or countersigning establishment bills passed by the Executive Committee or the Municipal Council and Deposit and Refund Bills, the payment of which has been ordered by the President.

III. Review of Progress secured in regard to notes of inspections requests etc., by Municipal Councillors, a copy of the review being sent to the President by the 20th of eve month.

The Vice-President was also placed in charge of the Devaraja Market, with a view to improve the working of the market. The Vice-President was also the Chairman of the S.H. Re-organisation Committee and the Convenor of the Poor Feeding Committee. He was also the Convenor of the Local Relief Committee for the Prevention of Beggary in Mysore which was constituted from the 30th November 1945.

Whenever the President was on leave the Vice-President was placed in charge of the current duties of the President.

As suggested in the previous Administration Report it is desirable that definite instructions may be laid down in regard to the precise nature of the duties to be delegated by the President, in accordance with the general or special orders as contemplated under Section 26(1) of the City Municipalities Act.

Mr.M.Shankariah, B.A.,LL.B., continued to be the Municipal Advocate, throughout the year, as the term of the Municipal Advocate was co-extensive with that of the

Council.

Mr.H.Sundaravaradachar was the Municipal Engineer till the 20th August 1945 when he was succeeded by Mr.R.L.Raju,B.E., as per Government Notification No.P.W 854/Est-5-45-5 dated 7-8-45. as the Municipal and Trust Board Engineer. As works in both the branches increased very much, it was found necessary to bifurcate them. The Government were pleased to sanction the proposals in this behalf in their order No.L.3341-2/M1.1-45-38 dated 27-10-1945. Accordingly, Mr.Khatwe, B.E., was appointed as Municipal Engineer on 22-4-46. Mr.Raju was appointed as Trust Board Engineer.

Dr.M.Ramachandra Rao, B.A.,M.B.B.S.,C.P.H., continued to be the Health Officer of the City till 2-9-45 when he was succeeded by Dr.M.Anantha Rao, B.Sc.,M.B.B.S.,D.P.H.

Mr.H.C.Jambukesvariah, B.A., Amildar who was the Revenue Officer of the Municipality was relieved of his duties on transfer to the Revenue Department on 2-7-45 by Mr.S.Siddappa, Octroi Superintendent, who was in charge till Mr.S.Murigendraswamy, M.A., Amildar, who was posted as per notification No.A1.2063 dated 5-6-1945 of the Revenue Commissioner, assumed charge of his duties as the Revenue Officer from Mr.S.Siddappa on 12-7-1945.

During the half year under report, the Octroi section was bifurcated and made an independent section as sanctioned in G.O.No.L.3341-2/M1.1-45-38 dated 27-10-45. This order was given effect to from 1-11-45 and the Octroi Superintendent is working under the direct control of the President.

1944-45	10,17,515	9,62,931
1945-46	11,81,274	12,40,287

There was an increase of Rs.214,148/- during the current year under Receipts due to the following:-

Octroi	40,000	
Taxes on Buildings & Lands	23,000	
Amusements tax		-14,000 (Received in 45-46-hence less
Water Rate	11,500	
Toll	7,500	
Vehicle Tax	2,500	
Sanitary cess	5,500	
Drainage cess	1,000	
Sale of Evening Bazaar	70,000	
Markets	6,000	
License fee	1,700	
Sewage Farm	3,300	
Public Debt	51,000	
Miscellaneous	5,000	
Total	Rs. 2,28,000	

Under Expenditure, there was an increase by Rs.548,065/-

The major portion of the excess expenditure was due to the following:-

General Administration	..	- 15,000 -
Street lighting		3,000
Public works		1,04,000
Conservancy & Sanitation	..	59,000
Water supply		82,000
Sewage Farm		5,000
Miscellaneous (Interest on loans & Grants to Institutions)		20,000
Public Debt		2,70,000
Total		Rs. 5,48,000

The incidence of taxation during the year was R. 5-9-4 per head The bulk of the expenditure is due to the payment of Dearness Allowance to the Municipal employees The Municipal Council are repeatedly requesting the Government to subsidise the Municipality to the extent of R.179,000/- per year upto the end of 1945-46 This expenditure has now gone up to more than two and half lakhs of rupees, owing to the enhancement of the Dearness Allowance from 1st July 194 Unless the Government comes to the rescue of the Municipality to tide over this abnormal expenditure, it will be possible to the Municipality to meet this temporary commitment; any imposition of fresh taxation to meet the heavy expenditure is not possible at this juncture The Municipality has tried to get the highest revenue from its sources such as raising the assessment according to rise in the rental of building properties, increasing the rent of Municipal hops that fell vacant etc

The details of receipts and expenditure are given below:-

PART III

RECEIPTS

7. OCTROI: The total collections under Octroi amounted R. 353,328/- during the year against Rs.318,703/-, resulting in excess Revenue of R.39,625/- There was increase

income under metal-ware, sugar, oil, iron goods, motor accessories, coffee, and tobacco. There was decrease under ground nuts, piece-goods and oil seeds. Appendix VIII-a shows the Revenue under several heads of dutiable articles. There has been greater vigilance on the part of the Octroi staff as a result of which many cases of minor smuggling were detected.

TOLLS:- A sum of Rs.73,969 (seventy three thousand and nine hundred fiftynine only) was realised under tolls against Rs.66,812/- showing an excess revenue of Rs.7,147/- owing to increase in traffic.

3. KHATABFA TAXES:- There were 26411 houses in the city at the beginning of the year as noted below. 128..... New houses were constructed during the year. ..... ~~houses were demolished and rebuilt or acquired.~~ At the end of the year, the total number of houses was as hereunder:-

		1944-45	1945-46
1.Terraced houses	..	2703	2869
2.Tiled houses	..	22908	23162
3.Thatched huts	..	410	380

1480.....sites were lying vacant at the end of the year as against 1170 last year.

4. DEMAND, COLLECTION AND BALANCE OF KHATABFA TAXES:

(House, Drain and Sanitary cess):-Revised D.C.B.figures are adopted.

A ARREARS:- Out of a sum of Rs.46,894/- outstanding at the beginning of the year, as against Rs.33,796/- outstanding at the beginning of 1944-45, a sum of Rs.31,769/- including remission was collected during the year under report as against Rs.25,354/- ~~for the corresponding period~~ last year. The percentage of collection is 69.0% as against 75.0% ~~for the corresponding period~~ of last year. The fall in the percentage of collection of arrears is mainly due to adopting the correct revised figures ~~under arrears as applied in the D.C.B. for June 1946.~~

CURRENT:- Out of the total demand of Rs.237,592/- booked

upto the end of June 1946, a sum of Rs.225,363/- was collected during the year 1945-46, leaving a balance of Rs.12,229/- as against Rs.28,156/- ~~for the corresponding period of~~ last yea The percentage of collection under this head was 95.06 as against 87.5 ~~for the corresponding period of~~ last year. There was a vigorous drive towards the close of the year for collection of current year taxes. The Executive Staff worked very hard and as a result, it has been possible to secure the highest percentage of 95.06 under current demand, which is a record figure. To reach this percentage figure is certainly an achievement for it breaks all the previous records. This is the first time in the history of this Municipality that thi high percentage has been secured.

EDUCATIONAL CESS:- The question of leyying the Educationa Cess on the house and land tax at 0-2-0 per rupee, instead of on the consolidated tax of Rs.9/- fixed on the Rental value was still under correspondence and the final orders of Government was awaited. Hence the Education cess due on the house and la taxes could not be levied during the year under report. Anyho a sum of Rs.2388/- was received from the Government departments and taken to credit.

9. OTHER ITEMS -Miscellaneous Revenue (Including markets)

The year opened with a balance of Rs.1,522/- the demand for the year amounted to Rs.131,274/-; the total demand to be collected, therefore, amounted to Rs.132,796/-. Out of this amount, a sum of Rs.130,840/- or 99.74% was collected during th year as against Rs.130,984/- or 99.53% during last year, leaving a balance of Rs.1956/- still to be collected at the end of the year. Out of this balance a sum of Rs.582/- has to be adjusted out of the compensation to be granted to the Daily Fee Contractor, Sheep Slaughter house, and another sum of Rs.658/- is due from the Daily Fee Contractor, Beef Slaughter house and the connected papers have been referred to the Municipal Advocate for taking legal action in the matter. The rest of the balance relates chiefly to the amount due from Government departments and Model House dues and these will

be usually collected in July 1946. The figures furnished hereunder show the comparative figures of D.C.B.of Miscellaneous Revenue for the years 1944-45 and 45-46.

Year.	Opening Balance.	Demand.	Total.	Collection	Closing Balance.
1944-45	911	131,594	132,506	130,984	1,522
1945-46	1,522	131,274	132,796	130,840	1,956

The proposal made for enhancing the rate of market shop rent by 12½% as approved by the Council was not sanctioned by Government, vide letter No.L-4289/ml.11-45-67 dated 27-11-1945 from the Revenue Secretary to Government. In case the General Revision was made, there would be an increase of Rs.5000/- under "shop rents"

The Evening Bazaar building situated on the Yelwal Road was auctioned on 6-8-1945 and the highest bid offered by Mr. V.Narayana Rao for Rs.75,000/- was accepted and the sale confirmed - vide Government Order No.4007-8/ml.85-45-46 dated 22-10-1945. The possession of property was given to the sale purchaser on 31-12-1945.

A separate Evening Bazaar is proposed to be constructed in the premises of the Town Hall Compound and the matter is under correspondence. A market for the Chamundipuram Extension is also proposed for the convenience of the inhabitants of that locality. The collection of Daily Fee in the Vanivilas market by departmental agency continued during the year under report also and the collection was satisfactory.

10. CATTLE POUNDS - There were only 3 Cattle Pounds during the year under report as against 4 in the previous year and this was due to the abolition of the Padavarahalli Cattle pound. The total revenue realised from the pound during the year was Rs.1290/- as against Rs.2084/- in the previous year. There is a decrease in the fall of revenue under this item and this is mainly due to the adverse seasonal conditions and the reduction in the numerical strength of the Pound itself.

total income under this head was Rs.41,000/- as including compensation for the registration of motor vehicles. Only such of the vehicles and animals as were in good condition were registered and licensed.

12. OTHER MISCELLANEOUS ITEMS:- A sum of Rs.70,000/- was realised by the sale of the Evening Bazaar Buildings. The receipts in Sewage farm was Rs.47,561/- by the sale of grass, vegetable and other produce.

From Miscellaneous items, a sum of Rs.3,342/- was realised, making a total of Rs.123,332/-.

Contribution & Grants:- sum of Rs.7,274/- was received under Registration and surcharge fees.

13. PUBLIC DEBT:-The total receipts under this head were Rs.3,46,177/- as under :-

1. Deposits - 1,55,314
2. Advances - 1,05,046
3. toc debits 31,614
4. model House Fund - 151,813

The Deposit amount includes the sum of Rs.70,000/- paid the purchaser of the Evening Bazaar buildings and the amount of hire recovered on lorries lent by the Food Supplier Department for fuel supply to contractors; and the value of model houses sold kept in deposit in the first instance and subsequently transferred to "model House Fund".

14. ADMINISTRATION

The expenditure under General Administration was Rs.122,438/- as noted below (includes establishment, contingency etc.):-

1. Head Office	-	Rs. 41,674
2. Octroi	-	23,645
3. Toll	-	3,179
4. Revenue section	-	35,091
5. Pensionary contribution and Gratuities.	-	15,000

15. [illegible]

1. Street Lighting:- Rs.45,950/- was paid for street

lighting charges during the year. At the beginning of the year, there were 1914 ordinary lights, 219 lights which had been disconnected during war time were restored, during the year. The number of Ornamental and cluster lights on which the Municipality is paying Royalty was 48 and 2 respectively.

16. FIRE PROTECTION:- Government contemplated installing fire-fighting units in Mysore city and asked the opinion of the Council with regard to meeting the charges thereon. The Council pleaded their inability to pay the initial and recurring expenditure. They were however agreeable to pay the hire charges. Final orders of the Government have not yet been received in the matter. There were a few minor fire accidents last year in Old Agrahar and near Subbarayanakere and in Dodpet. The Fire Brigade of the Railway department promptly attended to put down the fire.

During the year, 2083 stray dogs were destroyed.

17. PUBLIC WORKS CARRIED OUT BY THE MUNICIPAL ENGINEERING DEPARTMENT.

The Municipality has maintained its own Engineering section to carry out the public works relating to the Municipality and hence the Public Works Department is not entrusted with any civil work relating to the Municipality. The expenditure on public works carried out by the civil Department during the year amounted to Rs.234,909/- as against Rs.256,212/- in the previous year.

The following are the details of works carried out during the year:-

D1 - ORIGINAL WORKS.

1. Market Improvements:- In Devaraja market many improvements could not be effected during the year for want of funds and only minor improvements such as flooring for the open year of the Mutton stall with Doddaballapur slabs, at a cost of Rs.4000/- and chiselling burnt stone slabs at a cost of Rs.1700/- were taken up and completed.

Construction of 8 shops in Vanivilas Market at a of Rs.23,100/- taken up during the year is almost complete. Construction of Mutton stall at Erekatte at a cost of Rs.2000/- was completed. Expenditure under Market Improvements amounts to Rs.21,064/- (Rs.twenty one ~~and~~ thousand and sixty four only) as against a provision of Rs.14,500/- in the Budget. PUBLIC HEALTH

18. PUBLIC HEALTH.

The Health Officer was in direct charge of the Health Department of the Municipality during the year under report as before, and the conservancy and sanitary arrangements were looked after by him with the help of the subordinate staff. There was one Health Officer, one Assistant Health Officer and 7 Sanitary Inspectors and 14 Assistant Sanitary Inspectors and 4 Overseers.

The President inspected the City frequently with the Health Officer and the Municipal Engineer and gave suitable instructions with regard to the improvement of the sanitation, removal of rubbish, destruction of dogs, cleansing the Market etc., The Municipal Councillors also as usual went on Health rounds every Sunday in the Mohalla, and made useful suggestions for the improvement of the sanitation. Prompt action was taken on them. The Sectional Officers also accompanied the Councillors and made a note of their suggestions. The intensive cleaning drive started 2 years back is also being continued and the worst localities are being attended to systematically.

Except for sporadic cases of small pox, diptheria and plague, the state of public health was generally good. By taking prompt and intensive vaccination, inoculation and cyanogasing work in affected localities, by the employment of extra gangs wherever necessary the several epidemics were brought under control.

Action is being taken for the appointment of special Sanitary Police to prevent commission of nuisance in the city

The total expenditure under 'El.Health Office' was Rs.16,995/-. During the year. sanction was accorded to the proposal of the Council for the revision of the scale of the pay of the Head Clerk from Rs.40-2-50 to 50-2-60 and the for the appointment of a steno-typist on Rs.40-2-50 in consideration of the increasing work of this department.

19. CONSERVANCY AND SANITATION.

There were 724 sweepers and scavengers at the beginning of the year. 60 additional sweepers were sanctioned in Government Order No.L.6609-10/Ml.11-45-48 dated 11-1-46 in view of the expansion of the City and increasing work. It is reported that there is still need for the employment of more hands to attend satisfactorily to the cleaning work especially in the villages and outlying parts of the city (recently included within Municipal limits) and the congested localities of Mandi and Lashkar Mohallas of the City. This question is being examined. Amenities have been provided to the sweepers by providing them with housing accommodation, granting them the benefit of provident fund and maternity and sick leave, supply of provisions from the Municipal Co-operative stores, grant of loans and the payment of enhanced dearness allowance in addition to the revised grade pay. A literary class is also being held by the Harijan Sevak Sangha for which a monthly grant of Rs.25/- is being paid.

25. TWO THOUSAND THREE HUNDRED AND EIGHT-THREE SAMPLES OF ALL KINDS were examined at the Health Office Laboratory during the year as against 2433 during the previous year, and of these 248 samples of foodstuffs were submitted for analysis under the Mysore Prevention of Adulteration Act, the provision of which are being enforced in the City from June 1934.

During the year, the Laboratory section was equipped with a new microscope and several inoculation kit boxes. Proposals were submitted to increase the staff by sanctioning a Laboratory Attender and a peon. At present there is only one peon doing the Attender's work. As the Laboratory Assistant resigned on 1/7/45 the post is still vacant from then and action is being taken to post a suitable hand in the place.

204 samples of milk, 10 samples of ghee, 25 samples of butter, 7 samples of coffee powder and 3 samples of cream were received for analysis during the year and 92 samples of milk, 8 samples of ghee, 5 samples of butter, 2 samples of coffee powder were found to be adulterated. 80 prosecutions in respect of the adulterated samples were launched and 75 ended in conviction. The fines imposed in these cases ranged from Rs.2/= to Rs.50/= per case, the average fine being Rs.8/= per case. 2 cases ended in acquittal, 5 cases were compounded for Rs.65/= and withdrawn. 3 cases were withdrawn as the parties could not be traced and 38 cases had to be struck off, as the samples had the requisite labels notifying the fact of admixture or received from the Palace Mothikhana. Only 6 samples of ghee were received for analysis from the Palace Mothikhana during the year, under the scheme of levying small fees for analysis. A reference was made in this matter for

for sending samples regularly for analysis as in past years. No sample was received from the Hospital during the year or from milk-centre in the City. The percentage of adulterated samples for the year is 43.0 %.

As the Sanitary Inspectors who are the sampling authority in their respective areas, had to attend to epidemic duties during several months, they could not collect more samples of foodstuffs. It is necessary to entrust this work to a whole-time Food Inspector to ensure intensive work being done in this direction.

Water was the commenest adulterant found in all the samples of adulterated milk, the addition of water varying from 13 % to 66 % . Admixture of foreign fats from 32 % to 93 % was found in the samples of adulterated ghee and butter. One sample of butter contained 8 % excessive water incorporated into it. The adulterated samples of coffee contained 8 % and 30 % chicory admixture. The samples examined included samples of milk from milk-shops and coffee clubs, samples of ghee and butter from the several shops in the Devaraja Market and from the Exhibition Coffee club. Many complaints were received as regards bad quality of preparations served in hotels and of grams and flour sold in some shops. Some prepared food samples were received from the Rationing Department but they could not be examined here without necessary authorisation. The advice and kind instructions of the Director of Public Health was sought in the matter. A reference was also made to the District Magistrate for inflicting deterrent fines in cases of adulteration.

1018 samples of water were collected and examined during the year for bacteriological analysis and 82 samples for Chemical examination. These included samples of water from 'Fernhill', Ooty, Pond and well

water samples from S.K.Mills, tap water from the Belgula Chemicals and Fertilisers, well water samples from the Palace temples, tap water from Ganjam, Holdsworth Mission Hospital, pond water from Cole's garden, Devikola on the Hills, tap water from t h e Palace on the Hills, tank water from Karanji tank and samples of water collected from Lysore,Horse, Bonnimantap, Voddrapalya etc., and from the City Public water supply. 22 samples of water x were collected from houses where cases of Typhoid were reported and 8 samples of water were tested for Cholera. They were all negative. 127 samples of water from the City water supply gave unsatisfactory results of bacteriological analysis. The analysis was repeated in respect of 150 samples till satisfactory results were given. In all such cases the Superintendent, V.V.Water Works, Mysore, was requested to take immediate necessary action to rectify the taps giving unsatisfactory results and to arrange to cleaning and ~~xxxx~~ chlorinating the overhead tranks in several Mansions. During Birthday festivities, samples of tap water were collected both in the mornings and evenings daily from several Mansions and Lalithamahal and other places due to Cholera situation that existed then. Special collection of water samples and bacteriogical analysis were done during the Dasara season and in connection with the visit of the distinguished guest in August 1945. Systematic collection and analysis of samples of water drawn from several points from Lalithadri Hill to the pump house at Gate at Gate Lodge near Lalithamahal were done and the dosage of chlorination checked at several points. Samples of tap water from Hotel Metropole and other places were tested periodically as per kind advice of the Minister for Public Health. The collection of water, preparation of media and

and sterilisation had to be attended to by the Chemist in the absence of the Laboratory Assistant throughout the year. Samples of water from the wells in the Palace Fort were periodically tested and the wells got chlorinated. 29 wells were got chlorinated during the year The quality of the City public water supply continued to be generally satisfactory.

The working of the Laboratory section was kindly inspected by the President on 3/7/1945. Practical demonstrations in water bacteriology were given to the students of the Medical College in the Laboratory. Large quantities of butter were arranged to be melted and handed over to the village-vendors coming into the City during the Cholera season in July 1945. Large quantities of Cholera vaccine were obtained and distributed as also the inoculationmaterials, peptone media etc., in connection with mass inoculations done in the City. Requisitions for mass vaccinations were also attended to. 1 sample of vomit and 4 samples of motion were sent to the Public Health Institute and the K.R.Hospital for examination. Five papers were contributed to the Mysore State Medical Conference held at Landya. The Midwifery kits of all the Midwives were checked and fresh articles replenished. The Laboratory furniture was got polished. The Municipal Engineer has been requested to arrange for providing water sinks to the Laboratory benches and for effecting other improvements.

There were 126 rodents received for examination for plague infection during the year as against 336 during the previous year. 17 of them were positive for P.Pestis. Rat-falls positive to plague occured in the Wesley Press, S.K.Mills, Palace Gardens, P.Y.T Sanitorium and the Body Guards premises. Immediate

preventive measures of disinfection, cyanogassing and anti-plague inoculations were adopted at these places Disinfection and cyanogassing were promptly attended to all all the places where rat-falls were reported from The Lake View was sprayed with D D T solution

26 MARKETS AND SLAUGHTER HOUSES:-

The Devaraja Market was under the supervision of the Vice-President and the Vani Vilas, Mandi Mohalla, Sunnadakere and Krishnamurthypuram under the super-

supervision of the Revenue Officer. Frequent visit were paid by the concerned officers and the Health Officer and necessary instructions were issued to keep them in a good condition. The President also paid several surprise visits to the Markets and gave suggestions for their improvement. A sum of Rs.98884/= was spent for the improvement of the sevdral markets in the City. Charts - placards requesting the public not to spit indiscriminately and not to throw pealings of fruits wrapping in several places in the markets. Rotton vegetables and fruits were got distroyed on the spot.

27. MARKET SHOW: The Market show had not been held for a number of years. So it was revived during 45-46. A market show was held during the Dasara festivities on 13th October'45. The stall holders and the several outsiders who supplied fruits, vegetables and flowers to the City responded very enthusiastically and they had brought very fine specimens of all kinds of vegetables etc., Mr.M.A.Gopalaswamy Iyengar, M.A., B.L., President of the Bangalore City Municipal Council, presided on the occasion and distributed prizes.

TONGA & PONY SHOW: With a view to encourage the maintenance of good pubaic conveyance a Tonga and Pony show was held furing the year and prizes awarded to best Tonga horses.

EXTENSION OF VANI VILASA MARKET: Dharma Prakash V.D.Rajaram Modaliar was kind enough to make a handsome donation of Rs.10,000/= with a desire that the amount may be invested in the construction of shops in a needy locality in the City and the rent realised thereby namely about Rs.100/= a month may be given as donation to the Beggars' Relief Committee. This was thankfully accepted by the Municipal Council and

and the amount supplamented by the Council was utilised for the construction of a row of eight shops on the south-eastern side of the Vanivilasa Market. The Estimates for Rs.23,000/= was sanctioned and the construction of= the shops was almost complete at the close of the year.

SLAUGHTER HOUSE: The Construction of the permanent slaughter house at Kesere is under contemplation and the tenders for the work have been submitted to Government for sanction. It is now located in a temporary structure. 72,358 animals were slaughtered in the Slaughter House during the year and the slaughter house inspector attended to the neat keeping of the premises and saw that only health animals were slaughtered. Surprise visits were paid to the slaughter house by the President and the Health Officer and necessary instructions were issued for the surroundings to be kept in a sanitary condition. Temporary electric lights were provided during the year.

28. WATER SUPPLY: As usual the distribution of the supply of water in the city was under the control of the Executive Engineer, Water supply Division, Bangalore. There were 7800 water connections of which 6534 were charged on flat rate system. 691 were charged on excess rate basis and 576 on no-domestic basis. The total demand on account of water charges for the year including arrears, was Rs.1,98,880/=. Of these a sum of Rs.1,51,263/= was collected and Rs.3032/= remitted leaving a balance of Rs.44,588/= at the close of the year. All possible steps are being taken to collect the arrears. A special committee consisting of 12 members with the President as

as the Chairman was constituted by Government to send up proposals forthe adequate supply of water to the city, having the immediate and future necessities of the city in view. The Committee sent up proposals recommending the short range scheme for the improvement of water supply to be taken up immediately at a cost of Rs.6,64,000/= and the Government were pleased to sanction the scheme in their order No.L. 3674-6Ml. 67-45-4 dated 12th November 1945. Government were pleased to order that in view of the slender resources of the Municipality ~~taxxxxxxxxxxxxxxxx~~ they would bear half the cost of the scheme, the other half being met by the Council. As the Municipal Council had no funds ready on hand Government were pleased to advance the sum of Rs.3,17,325/= as loan repayable in 20 annual instalments at 3½ % interest per annum. The work of improvement is under progress.

29. SEWAGE FARM: Besides growing grass and supplying to the public, special attention was paid to the growth of vegetables both English and Indian under the grow more food campaign. The area of the farm was extended by acquiring the agricultural lands contiguous to it at a cost of Rs.20,787/= The present area ofthe Farm is 350 acres. The total receipts and expenditure of the Farm amounted to Rs.47,574/= and Rs.40,748/= respectively.

The revenue yielding trees such as champak, coconut, mango, tamarind, etc., were maintained well. The dry cattle shed was also popular as usual.

A sub-committee was formed furing the year to devise ways and means for improvement of the Farm in Council Resolution No.575/20. 12. 45 and it met three times during the year and gave valuable suggestions for the improvement of the farm.

COMPOST: Manufacture of compost under the new simple method continued during the year. A sum of Rs.1974/= was realised by the sale of compost. A proposal for the manufacture of dry compost in

in several parts of the City by removing the dry rubbish of the particular localities to these places is under way. This scheme will not only help to more satisfactory removal of rubbish from t h e several Mohallas but the compost prepared will yeild a good revenue besides supplying good manure to surrounding agriculturists.

31. AVENUES AND PUBLIC GARDENS:

These were under the supervision of the Municipal Engineer. The work of planting new trees in the newly laid out extensions is being carried out by the Trust Board Engineer. A sum of Rs.10,571/= was spent by the Municipality during the year under these heads. Under the grow more food campaign vegetables are also being grown in the Bhudevi Farm - acquired by the Municipality. Owing to the planting of avenues in roads not so far served and the formation of several new extensions, the work of this establishment has very much increased of late. The reorganisation of this establishment will be placed before the Council for consideration.

34. AUDIT OF ACCOUNTS:- AND EMBEZZLMENT:-

The system of pre-audit by the Comptroller's Office staff continued during the year. One Senior Auditor with two clerks were working in the Municipality, proportionate cost of their salary being debited to the Municipal Funds. THE BILLS ARE SUBJECT TO PRE-AUDIT. The revenue collections are also checked with reference to the

receipts, khirdies and cash book. The D.C.B. Accounts relating to the Municipal Avenues are now being regularly audited.

The Council sanctioned the appointment of one more hand on 40-3-70 to strengthen the existing audit establishment.

It is necessary that there should be a more thorough concurrent audit of the receipts/ side so that the accounts may be accurate and to have the defects rectified then and there. The suggestions of the ~~Audit~~ Assistant-Comptroller, Mysore Circle will be obtained in this connection. During the year one clerk Venko Balaji Rao of the water Revenue section misappropriated Rs 97-4-0 This was detected and after a careful scrutiny by auditor of the exact sum misappropriated by the clerk, out of the money received by him on account of water revenue, the amount misappropriated was recovered and the clerk kept under suspension. The matter was investigated in detail and it was proved that the clerk was in the habit of making belated remittances and making temporary misappropriations. He has, therefore, been recommended for compulsory retirement and orders of Government are awaited in the matter.

35. The Audit Committee met once in the year and scrutinised the Engineering Section and Health Section Stores Registers. As a result of the scrutiny they advised the formation of a Central Stores for the Municipality and this subject is under correspondence with the Government.

GENERAL: The President made systematic inspections of the Mohallas in company with the sectional Officers besides surprise inspections

to find out how far the Municipal Executive were vigilant and attended to their duties. He also went on inspections with the Council of the Mohallas on many occasions. Notes of pections were forwarded to the sectional Office for needful action and report and care was taken to see that they were attended to promptly. The several sections of the Office were also inspected and defects notified. The Notes of defects noticed sent to them for instruction and guidance.

The Municipal Council has been strenuously striving to provide all possible civic amenities and maximum Health service and medical relief and other public conveniences.

There was complete cordiality between the President and the Councillors and my sincere thanks are due to them for their continued interest and ready co-operation and valuable suggestions in the smooth working of the Municipality.

The Municipal Staff both executive and clerical evinced keen interest in the work and carried out the instructions promptly.

The Administration of the Municipality was on the whole satisfactory.

PRESIDENT,
CITY MUNICIPAL COUNCIL, MYSORE.

MSR.

MYSORE CITY MUNICIPALITY.

REPORT ON THE ADMINISTRATION OF THE MYSORE CITY MUNICIPALITY FOR THE YEAR 1945-46.

IMPORTANT EVENTS DURING THE YEAR.

The year was one of important and interesting events. Principal events of the year are summarised hereunder:

1. The Festivities connected with the Birthday and the Dasara were as usual conducted with great eclat. The roads in the City were kept clean and beautifully decorated and special sanitary arrangements were made to keep the City scrupulously clean. The Exhibition arrangements during the year also attracted the people. There was a large concourse of people from all parts of the both inside and outside the State and as many as two lakhs of people had gathered on the occasion. Special arrangements had been made to provide necessary amenities to the people on the occasion

On the last day of the Dasara, His Highness's Procession went in the New Bannimantap Road which was greatly improved and rendered fit for the occasion. Ample scope was provided to have a clear view of the Procession by the public without difficulty Besides this a number of tents were pitched up on the Shamiana in the Town Hall compound near the Statue Square and accommodation provided to seat the ladies and gentlemen to view the Procession. Arrangements were also made to seating college girl students in the Town Hall compound during the Procession.

The Municipal Councillors assembled at the Municipal Pendal near the Statue Square and submitted their Loyal felicitations and offered flowers to His Highness the Maharaja on both the Procession days.

It is a matter for great rejoicing that our Beloved Sovereign His Highness the Maharaja of Mysore was honoured with the title of 'G.C.B' by His Majesty the King Emperor on the New Year Day. In connection with this, the Municipal Council convened a Special meeting on the 28-1-1946 and passed the following resolution.

'This Council respectfully submits for the gracious acceptance of His Highness the Maharaja of Mysore, our Beloved Sovereign, their Loyal felicitations on the exalted title of 'G.C.B' conferred on His Highness by His Majesty the King Emperor.'

The following important personages visited the City during the year:-

1. January, 45:	His Excellency the Governor of Madras.
2. August, 45:	Visit of His Excellency the Commander in Chief.
3. Feb.45.	Lt.Col.C.K.Daly, C.S.I.,C.I.E., National Savings Commissioner, Govt. of India
4. Sept.45	Sir S.V.Ramamurthy, Adviser to His Excellency the Governor of Madras

The Council passed condolence resolutions on the demise of the following distinguished personages -

1. Sjt. Subhas Chandra Bose.
2. Sait Mohandas Tulsi Das who donated a sum of Rs.15,000/- for the construction of the Womens Hospital at Chamundipuram
3. K.N.Venkatakrishniah, Ex Municipal Councillor.
4. Rt.Hon.V.S.Sreenivasa Sastri

ADMINISTRATION

With a view to have more efficient supervision over the work of octroi Superintendent an equal and independent status the Octroi and Revenue Sections were bifurcated and the same was sanctioned in G.O.No.L.3341-Ml.11-45-53 dated 27-10-1943. Similarly for the better supervision of the Municipal Engineering works, two separate Assistant Engineers were appointed, one to look after the City Improvement Trust Board and the other to look after exclu-

sively the Municipal Engineering works, vide G.O.No. L.8830-3/Ml.11-45-122 dated 23-2-1946.

The Council also sanctioned the appointment of a Head Clerk on Rs.50-2-60 to the Health Officer and also a Steno-typist on Rs.40-2-50. They have also recommended the appointment of a Steno-typist on Rs.40-2-50 to the Municipal Engineer.

The Revenues of the Municipality have increased very much at present and the expenditure has also gone up very high but the staff remained the same except for slight changes. The work in the several sections of the Municipality has increased enormously. The work in the Council section has become particularly high as would be seen from the following figures:-

Year.		No.of subjects considered.
1940-41	...	688
1941-42	...	1057
1942-43	...	892
1943-44	...	942
1944-45	...	1104
1945-46	...	1243

Besides, this, a number of sub-committees have been formed adding to the work. Modest proposals for the revision of the staff of the Head Office have been submitted to Government and orders thereon are awaited.

The work in all the sections has been considerably hampered by the posting of experienced hands to Food Supplies and other Departments and the new recruits appointed are not of much service. Sufficient number of hands have not been assigned to this Unit. Consequently, available local candi-dates of the Backward communities had to be appointed temporarily. These, however, proved to be mostly failed candidates in Intermediate and other examinations and they did not stick on to the jobs and left their work in confusion and in an incompleted stage. It therefore resulted in considerable overwork on the old hands. By systematic checking of their work, the work has however been kept up-to-date. Monthly list of business done in each section

is called for and reviewed and strict instructions are being issued to clear arrears

During the year special attention was paid for providing greater amenities to the rate-payers in all important matters which can be briefly summarised as follows:-

I. Water-supply: There was intermittent water-supply in the City. To improve this, the installing of a 350 H.P. Motor Pumping set at Belagola was sanctioned at a cost of Rs.54,087/-, and this was approved in G.O.No.L.2206/Ml.67-44-6 dated 19-9-45. The Special Committee appointed by Government for the improvement of water-supply as part of the Postwar Reconstruction recommended the launching of a short-term range scheme costing Rs.6,64,000/- for the immediate improvement of water-supply to the City and this was sanctioned by Government in their order No.L.R.3674-6/Ml. 67-45-4 dated 12-11-45. The Government have generously agreed to bear half the cost of the scheme as a donation by Government to the Municipality and to advance the other half as a loan to the Municipality to be repaid in 20 equal instalments at 3½% interest.

II. Milk-supply: With a view to improve the milk supply to the citizens the Council resolved to open and maintain a Dairy Farm as an adjunct to the Sewage Farm, and approached the Government for a loan of Rs.30,000/- Government in their Order No.L-10737-9/Ml.194-44-2 dated 28-4-45 have sanctioned a loan of Rs.30,000/- carrying an interest of 2% repayable in 10 annual instalments. The Superintendent Veterinary and Animal Husbandry Services, has been requested to supply 6 Sindhi cows and 6 Murrah Buffaloes to start with. He has not yet got them. As soon as these cattle are received the Dairy will be started. A dairy cattle shed at a cost of Rs. 6300/- has been constructed in the Municipal Farm.

III. Food Rationing: The Rationing system introduced into the City in December 1943 was in force during the year

under report and rationed articles were issued to the residents of the City through the several depots opened in all the Mohallas for the purpose on Ration cards. The President, City Municipal Council, continued to be the Chief Rationing Officer. On the special representation of the Council, arrangements were made with the Food Supply Department for the sale of Tur Dhall and Bengalgram dhall to the public. Rationed articles were supplied to the Municipal staff including the sweepers and scavengers through the Municipal Co-operative Stores. A few officials of the Health and other sections are working as part-time officials of the Co-operative Stores. As the work, is increasing, the Managing Committee of the Co-operative Stores is desirous of having a wholetime paid Secretary and a couple of clerks, to lookafter the work of the Society and to issue the rationed articles to the staff on all days as in the Government Rationed depots.

XIV. A Sub Committee has been formed for considering the question of opening Nutrition centres where cheap and healthy cooked food will be available for the public.

V. Poor Feeling. As a result of rationing, the condition of beggars and destitutes in the City became hopeless as they could not get alms as before. With a view to afford them relief, a poor feeding committee was formed in 1944 which is carrying on philanthropic work. A monthly grant of Rs.2,400/- is being made graciously by His Highness every month, and the indigent poor are being fed every day under the supervision of the Revenue Officer. Every day 1100 to 1200 poor people are being fed. Besides this, rice doles are being given to 400 poor families. A sum of Rs.29,674 were spent for the purpose. The Municipality contributed a sum of Rs.250/- per month for the distribution of rice doles to the poor during the year.

VIII. Distribution of clothing to the poor: Mr.M.L.Nagarna of Mysore donated Rs.500/- for providing the disabled people

in this City with dhoties and sarees. The President distributed the cloth to the poor at the Municipal offices on Monday the 26th December 1945. By P N Sengappa also generously donated Rs 800/- for the purpose and the clothing was given in 1946 VII. Feeding of the poor students. Consequent on rationing many poor school students who were getting their food in the homes of the citizens, on the system of being fed once a week or by daily begging, were stranded and they had almost to give up their studies. The Municipality stepped into the breach and made an appeal to the public for donations to afford food to these students. With the generous response from the public and the co-operation of the prominent Hotel-keepers in the City, 85 students were given boarding at the several hotels in the City at a concession rate of 10 rupees per head per month during 1944-45. During 45-46 also arrangements were made for the boarding of 76 students in the several hotels. The thanks of the Councillors are due to the several donors and to the Proprietors of the hotels for their help.

VIII. Fuel supply: to the City: The supply of fuel to the City became very acute in 1944-45 and the Council constituted a sub-committee of the Council, with the Dist. Forest Officer also as a member, to concert measures for the supply of adequate fuel to the public at a cheap rate. The Food Supply Department placed 15 lorries at the disposal of the Municipality. 7 lorries were sold to fuel contractors and 8 lorries were leased for hire to some others on condition that they should sell fuel at 4 mds., a rupee into Fair Price Depots in the several mohallas of the City. Accordingly fuel is being sold. This together with the fuel got by licensed private shop-keepers has enabled us to tide over the difficulty to some extent. In the Forest Department Woodyard there is always a stock of 500 tons of fuel for emergencies. Proposals for the supply of charcoal at a cheap rate are being considered.

IX. Housing Problems: Housing of the population is one of the most important problems engaging the attention of the Council especially the housing of the poor and the sweepers of the Municipality. A Model House fund was started in the year 1941-42 under which houses are being built and sold. During the year, 34 houses were built in K.R.Vanam and sold. A sum of Rs.1,51,814/- being the realisations by the sale of model houses during 44-45 and 45-46 held in deposit was credited to 'Model House Fund'. The construction of 16 model houses in K.R.Vanam was completed and 7 houses in Ramanuja road were under construction. A sum of Rs.27,968/- was spent for the purpose. Sweepers quarters were constructed at Kesare at a cost of of Rs.2730/- and a school for the use of the children of the sweepers and Harijans was constructed at Jalapuri at a cost of Rs.2,100/-. The City Improvement Trust Board is also actively engaged in the formation of sites. The further layout of Paduvarahally, Yadavagiri and Bannimantap extensions continues and some sites for the construction of model houses were also allotted in Chamundi Extension. 492 sites were sold to the public by the Trust Board during the year. 12 model houses in Ramanuja Road were completed and 26 sweepers quarters in Jalapuri costing Rs.23,950/- were nearing completion.

X. Slum clearance. 8 properties in Nazarbad Mohalla, 3 in Lashkar and 1 in Fort were acquired during the year. The first and second stages of the formation of a road from the Old Elgin Fountain to the District Offices is under progress. By this. the worst part of the slum area in Devaraja Mohalla will be cleared. A sum of Rs.14,827/- was spent for slum clearance during the year.

XI. Underground Drainage: Laid out by the City Improvement Trust Board. Laying of sewers in the 28th block in Veeranagere was taken up by the Trust Board and Rs.14,092 spent on the work.

XII. Public Bath: Special attention was given to the better cleaning of the City. For this purpose, 60 additional sweepers were sanctioned by the Council and approved by Government in their Order No.L.6609-10/M1.11-45-48 dated 11-1-1946. The Council have also sanctioned an additional lorry for the prompt removal of rubbish. The replacement of rubbish carts by motor lorries for prompt and economical work is under consideration. The President visited the Mohallas regularly on Wednesdays and Fridays with the Health Officer and the Municipal Engineer and issued suitable instructions to get the defects noticed, rectifie and care was taken to see that the inspections were prompt and thoroughly carried out. The Municipal Councillors went round the Mohallas on every Sunday with the Municipal staff and gave suitable suggestions for better cleaning etc. Intensive cleaning drive continues in the city every Saturday afternoon as usual.

The question of appointing mobile police to prevent the commission of nuisance in streets and open spaces and to remove encroachments etc., is under consideration. This staff was since sanctioned.

XIII. Control of Epidemics. With a view to prevent the periodical outbreak of plague, a cyano-gassing establi ment was sanctioned and 24,647 houses were fumigated. The Council felt that systematic anti-plague work had to be done to prevent the occurrence of plague and has since sanctioned a permanent gang of 3 hands to each of the 7 mohallas for attending to this work. A Tuberculosis survey has also been undertaken. 2 Sanitary Inspectors Asst.Sanitary Inspectors and 18 fieldmen are detailed for mosquito control work, and Malaria has been brought under control. Special attention was also paid to the destruction of stray dogs and the catching of monkeys.

XIV. Amenities to the staff. As detailed above, houses for sweepers, are being built rapidly. It is

proposed to build sweepers quarters in all the Mohallas so that they may reside nearer the place of their daily work and thus avoid long journeys to and from their homes. Rationed articles are being distributed to them through the Municipal Co-operative Stores, and they have been recently given the benefit of the Provident Fund Scheme and Maternity and sick leave. Their pay also has been fixed on a time scale of 10-1-15 which is not the case with the menial staff of the Municipality.

Sites have also been allotted to the officials of the Municipality and the Trust Board in the several extensions of the City for such of those who applied for the same. The Municipal and Trust Board Co-operative Society and the Health Department Co-operative Society are doing good work by affording financial help to the staff when needed.

XIV. Beggars Relief: The Minister for Revenue and Law Mr.O.Pulla Reddy, L.A.,I.C.S., was pleased to enquire during his visit in February 1945 if there was a Home for Destitutes and gave instructions for starting one such with the help of the philanthropic public and the Municipal Council. At a meeting of the Municipal Councillors and other philanthropic gentlemen of the City, convened on the 26th March,45, a small Committee for starting an Ashakta Poshanalaya consisting of 12 members was formed, the President of the Municipality being Chairman thereof and the Vice-President the Convenor. Action was taken thereon to collect funds from philanthropic gentlemen and a sum of Rs.27,826/- had been collected by December 1945. Out of this, a sum of Rs.16,000/- was in Municipal Deposit and the remaining Rs.11,826/- in Mysore Bank in the name of Ashaktha Poshanalaya.

Consequent on the formation of the Central Relief Committee for the Prevention of Beggary in Mysore State as per Government Notification No.L.4146/EM.3-45-5 dated 24-11-45 constituted by Government in exercise of the powers

conferred by Section 5 of the Act for Prohibition of Beggar an Inaugural meeting of the Municipal Councillors and the leading and philanthropic citizens of Mysore was convened on the 30th November, 45 when the Chairman of the Central Relief Committee constituted as above presided. After discussions regarding the functions of the Central Relief Committee and the Local Relief Committee to be formed under its aegis, a local Committee consisting of 24 members was formed.

WORKING OF THE COMMITTEE.

(1) Meetings. The Committee had subsequently met thrice on 3-1-46, 15-2-46 and 18-3-1946 to concert measures for the starting of the Relief works under the Beggary Relief Act. The Sub-Committee formed by the Local Relief Committee had also met once on 8-3-46 for discussing the working for carrying out the provisions of the above Act.

The following is the progress of work done by the above Committee so far:-

(i) Building for the Relief Centre. The Municipal Council kindly placed their building on the Bannimantap ro for the Relief Centre. As this was not suitable, action is being taken to construct a suitable building. An exten of 9 acres is being acquired and the Central Committee has been requested to grant a sum of Rs. 50,000 for the building purpose.

(ii) Transfer of Funds from the account of Ashaktha Poshanalaya to the Local Relief Committee.

As per Municipal Council resolution No.649 dated 7-2-46, agreeing for the transfer of funds from Ashakta Poshanalaya to the credit of the Local Committee a fresh account was opened with the Mysore Bank, the old account being closed a sum of Rs.12,864-6-0 including th interest and the donations of Rs.1025, received subsequen

to the date of resolution now stands in the account of the Chairman, Local Relief Committee for the Prevention of Beggary in Mysore City.

The Local Committee has approved with slight modifications the working plan placed by the Sub Committee for the initial equipment and the establishment required for starting and maintaining the same. A sum of Rs.2,500/- in the aggregate is resolved to be incurred for the following equipments:

Furniture ...	...	Rs. 500/-
Vessels ...	...	Rs.1000/-(20 sets for males

At the request of the Local Committee, the Vice-President and the Municipal Engineer had been to Bangalore to study the arrangements at the Ashakta Poshaka Sabha working as a Receiving Centre in Bangalore City during the last week.

The question of introducing the Act is under the consideration of the Central Relief Committee to whom a reference has been made

Conclusion. The Municipal Council has been anxious to provide all possible civic amenities such as maximum public health service, adequate water-supply, well maintained roads both main and interior, construction of drains and culverts, children's play-grounds, radios, establishment of Maternity Homes, Milk Centres, Beggars' Relief Poor Feeding, providing of houses, efficient public conveyance and medical relief, civic propaganda work, encouragement of physical culture, nursery schools, etc. They have also created better facilities to the staff in the way of housing, co-operative stores, and co-operative banking, and in certain cases especially to the sweepers by revision of pay and creating Provident Fund Scheme. The area of the City has increased from 12.75 sq-miles to 13.16 sq-miles, by the inclusion of Kumbarkoppal, Thonachikoppal and Vaddarapalya villages. The demand for still better civic amenities in the shape of more lights, underground drainage better fuel and milk-supply, and better houses, is increasing. The cost of materials and labour has gone up, thus raising the normal expenditure of the Municipality. Though the revenue of the Municipality has increased under Octroi and Toll and also miscellaneous items such as Registration fees at 1% on the Transfer and Mortgage of immovable properties, the rise is very insignificant compared with the daily growing expenditure. The Council have appointed "Ways and Means" Committee, to go into the question of improving the finances of the Municipality so that the normal commitments may be met. The grant of dearness allowance to the Municipal employees has been the main item of the enhanced expenditure, amounting to Rs.1,79,000 upto the end of 45-46. The further rise in the rate of dearness allowance from 1st July 46 has made the situation worse. The commitment of the Municipality in this behalf, per annum is Rs.2,68,000 This amount cannot be met from the normal revenues of the Municipality nor has it got any special reserves or invest-

ments on which to draw. The question of imposition of any additional tax to meet this abnormal and unforseen expenditure is not possible now. The only course is for the Government to come to the rescue of the Municipality in this crisis by granting it a special contribution to meet the expenditure on account of dearness allowance and thus help it to tide over the difficulty.

PART II.

Constitution and working of the Municipality.

1. Municipal Boundary and area. The area of the Municipality during the year 43-44 was 12.75 sq-miles. As per Government Notification No.L.7160/M1.95-42-13 dated 17th January 1944, the Municipal limits were extended and certain portions of the villages of Kumbarakoppal, Thonachikoppal and Vaddarapalya were included within the City Municipal limits. Mr.R.Ramachandra Rao Bhombore, B.A., continued to be the President of the City Municipal Council throughout the year.

The Municipal Council are repeatedly urging on the Government to grant them the privilege of electing their own President as contemplated in Section 23(2) of the Mysore Municipal Act. This year also they passed a similar resolution at a Special Meeting held on 4th August 45, and the same was forwarded to Government. No orders have yet been received in the matter.

Vice-President.

Mr.T.Venkataramaniah entered upon his duties as Vice-President for a period of one year from 3rd January 1945, and continued as such till the end of 3rd January 1946, when he was succeeded by Mr.A.Krishnamurthy Rao who was declared duly elected at the Special meeting of the Municipal Council held on the 12th December 45, after the observation of the several formalities, approved by Government in their order No.L.5971-M1.42-45-46 dated the 3rd January 1946.

The following powers and duties were assigned to the Vice-President under Section 26(1) of the Mysore City Municipalities Act, subject to the general control of the President.

I. Powers of supervision over

a. Hackney Carriage Section.
b. Water Revenue Section.
c. Sewage Farm.

II. Signing or countersigning establishment bills passed by the Executive Committee or the Municipal Council and Deposit and Refund Bills, the payment of which has been ordered by the President.

III. Review of Progress secured in regard to notes of inspections requests etc., by Municipal Councillors, a copy of the review being sent to the President by the 20th of every month.

The Vice-President was also placed in charge of the Devaraja Market, with a view to improve the working of the market. The Vice-President was also the Chairman of the Staff Re-organisation Committee and the Convenor of the Poor Feeding Committee. He was also the Convenor of the Local Relief Committee for the Prevention of Beggary in Mysore which was constituted from the 30th November 1945.

Whenever the President was on leave the Vice-President was placed in charge of the current duties of the President.

As suggested in the previous Administration Report it is desirable that definite instructions may be laid down in regard to the precise nature of the duties to be delegated by the President, in accordance with the general or special orders as contemplated under Section 26(1) of the City Municipalities Act.

Mr.M.Shankariah, B.A.,LL.B., continued to be the Municipal Advocate, throughout the year, as the term of the Municipal Advocate was co-extensive with that of the

Council.

Mr.H.Sundaravaradachar was the Municipal Engineer till the 20th August 1945 when he was succeeded by Mr.R.L.Raju,B.E., as per Government Notification No.P.W. 854/Est-5-45-5 dated 7-8-45, as the Municipal and Trust Board Engineer. As works in both the branches increased very much, it was found necessary to bifurcate them. The Government were pleased to sanction the proposals in this behalf in their order No.L.3341-2/Ml.1-45-38 dated 27-10-1945. Accordingly, Mr.Khatwe, B.E., was appointed as Municipal Engineer on 22-4-46. Mr.Raju was appointed as Trust Board Engineer.

Dr.M.Ramachandra Rao, B.A.,M.B.B.S.,C.P.H., continued to be the Health Officer of the City till 2-9-45 when he was succeeded by Dr.E.Anantha Rao, B.Sc.,M.B.B.S.,D.P.H.

Mr.H.C.Jambukesvariah, B.A., Amildar who was the Revenue Officer of the Municipality was relieved of his duties on transfer to the Revenue Department on 2-7-45 by Mr.S.Siddappa, Octroi Superintendent, who was in charge till Mr.S.Murigendraswamy, M.A., Amildar, who was posted as per notification No.Al.2063 dated 5-6-1945 of the Revenue Commissioner, assumed charge of his duties as the Revenue Officer from Mr.S.Siddappa on 12-7-1945.

During the half year under report, the Octroi section was bifurcated and made an independent section as sanctioned in G.O.No.L.3341-2/Ml.1-45-38 dated 27-10-45. This order was given effect to from 1-11-45 and the Octroi Superintendent is working under the direct control of the President.

Appendix VIII shows the details of receipts and expenditure under the various Budget Heads. The Income and Expenditure under ordinary heads during the five years is given below:-

Year.	Income from Ordinary sources.	Ordinary Expenditure.
1940-41	8,34,456	7,44,500
1941-42	8,57,221	7,93,296
1942-43	8,87,190	~~8,69,219~~ 8,78,488

1944-45	10,17,515	9,62,931
1945-46	11,81,274	12,40,287

There was an increase of Rs.214,148/- during the current year under Receipts due to the following:-

Octroi	40,000	
Taxes on Buildings & Lands	23,000	
Amusements tax		-14,000 (Received in 45-46-hence less
Water Rate	11,500	
Toll	7,500	
Vehicle Tax	2,500	
Sanitary cess	5,500	
Drainage cess	1,000	
Sale of Evening Bazaar	70,000	
Markets	6,000	
License fee	1,700	
Sewage Farm	3,300	
Public Debt	51,000	
Miscellaneous	5,000	
Total	Rs. 2,28,000	

Under Expenditure, there was an increase by Rs.542,065/-

The major portion of the excess expenditure was due to the following:-

General Administration	..	15,000
Street lighting	..	3,000
Public works	..	1,04,000
Conservancy & Sanitation	..	59,000
Water supply	..	82,000
Sewage Farm	..	5,000
Miscellaneous (Interest on loans & Grants to Institutions).	..	10,000
Public Debt	..	2,70,000
Total	..	Rs. 5,48,000

The incidence of taxation during the year was Rs.5-9-8 per head. The bulk of the expenditure is due to the payment of Dearness Allowance to the Municipal employees. The Municipal Council are repeatedly requesting the Government to subsidise the Municipality to the extent of Rs.179,000/- per year upto the end of 1945-46. This expenditure has now gone up to more than two and half lakhs of rupees, owing to the enhancement of the Dearness Allowance from 1st July 1946. Unless the Government comes to the rescue of the Municipality to tide over this abnormal expenditure, it will not be possible to the Municipality to meet this temporary commitment; any imposition of fresh taxation to meet this heavy expenditure is not possible at this juncture. The Municipality has tried to get the highest revenue from all its sources such as raising the assessment according to the rise in the rental of building properties, increasing the rent of Municipal shops that fell vacant etc.

The details of receipts and expenditure are given below:-

PART III.

RECEIPTS.

7. OCTROI: The total collections under Octroi amounted to Rs.358,328/- during the year against Rs.318,703/-, resulting in excess Revenue of Rs.39,625/-. There was increase in

income under metal-ware, sugar, oil, iron goods, motor accessories, coffee, and tobacco. There was decrease under ground nuts, piece-goods and oil seeds. Appendix VIII-a shows the Revenue under several heads of dutiable articles. There has been greater vigilance on the part of the Octroi Staff as a result of which many cases of minor smuggling were detected.

TOLLS:- A sum of Rs.73,959 (seventy three thousand and nine hundred fiftynine only) was realised under tolls against Rs.66,812/- showing an excess revenue of Rs.7,147/- owing to increase in traffic.

8. KOHATARFA TAXES:- There were 26411 houses in the city at the beginning of the year as noted below. 128 new houses were constructed during the year. ~~houses were demolished and rebuilt or acquired.~~ At the end of the year, the total number of houses was as hereunder:-

		1944-45	1945-46
1.Terraced houses	..	2703	2869
2.Tiled houses	..	22998	~~23062~~ 22990
3.Thatched hutts	..	410	380

1480 sites were lying vacant at the end of the year as against 1170 last year.

4. DEMAND,COLLECTION AND BALANCE OF KOHATARFA TAXES: (House,Drain and Sanitary cess):-Revised D.C.B.figures are adopted.

ARREARS:- Out of a sum of Rs.46,694/- outstanding at the beginning of the year, as against Rs.33,796/- outstanding at the beginning of 1944-45, a sum of Rs.31,769/- including remission was collected during the year under report as against Rs.25,384/- ~~for the corresponding period~~ last year. The percentage of collection is 69.0% as against 75.0% ~~for the corresponding period of~~ last year. The fall in the percentage of collection of arrears is mainly due to adopting the Green revised figures ~~under arrears as explained in the D.C.B for June 1946.~~

CURRENT:- Out of the total demand of Rs.237,593/- booked

upto the end of June 1946, a sum of Rs.223,363/- was collected during the year 1945-46, leaving a balance of Rs.12,229/- as against Rs.28,156/- for ~~the corresponding period of~~ last year. The percentage of collection under this head was 95.06 as against 87.5 for ~~the corresponding period of~~ last year. There was a vigorous drive towards the close of the year for collection of current year taxes. The Executive Staff worked very hard and as a result, it has been possible to secure the highest percentage of 95.06 under current demand, which is a record figure. To reach this percentage figure is certainly an achievement for it breaks all the previous records. This is the first time in the history of this Municipality that this high percentage has been secured.

EDUCATIONAL CESS:- The question of levying the Educational Cess on the house and land tax at 0-2-0 per rupee, instead of on the consolidated tax of Rs.9/- fixed on the Rental value was still under correspondence and the final orders of Covernme was awaited. Hence the Education cess due on the house and land taxes could not be levied during the year under report. Anyhow, a sum of Rs.2388/- was received from the Government departments and taken to credit.

8. OTHER ITEMS -Miscellaneous Revenue (Including markets)

The year opened with a balance of Rs.1,522/- the demand for the year amounted to Rs.131,274/-; the total demand to be collected, therefore, amounted to Rs.132,796/-. Out of this amount, a sum of Rs.130,840/- or 99.74% was collected during the year as against Rs.130,984/- or 99.53% during last year, leaving a balance of Rs.1956/- still to be collected at the end of the year. Out of this balance a sum of Rs.582/- has to be adjusted out of the compensation to be granted to the Daily Fee Contractor, Sheep Slaughter house, and another sum of Rs.658/- is due from the Daily Fee Contractor, Beef Slaughter house and the connected papers have been referred to the Municipal Advocate for taking legal action in the matter. The rest of the balance relates chiefly to the amount due from Government departments and Model House dues and these will

The proposal made for enhancing the rate of market shop rent by 12½% as approved by the Council was not sanctioned by Government, vide letter No.I-4229/Rl.11-45-67 dated 27-11-1945 from the Revenue Secretary to Government. In case the General Revision was made, there would be an increase of Rs.5000/- under "shop rents".

The Evening Bazaar building situated on the Kolval Road was auctioned on 6-3-1945 and the highest bid offered by Mr. V. Narayana Rao for Rs.75,000/- was accepted and the sale confirmed - vide Government Order No.4007-C/Rl.55-45-46 dated 22-11-1945. The possession of property was given to the sale purchaser on 31-12-1945.

A separate Evening Bazaar is proposed to be constructed in the premises of the Town Hall Compound and the matter is under correspondence. A market for the Chamundipuram extension is also proposed for the convenience of the inhabitants of that locality. The collection of Daily Fee in the Venivilas market by departmental agency continued during the year under report also and the collection was satisfactory.

10. CATTLE POUND:- There were only 3 Cattle Pounds during the year under report as against 4 in the previous year and this was due to the abolition of the Nadavarahalli Cattle pound. The total revenue realised from the pound during the year was Rs.1290/- as against Rs.2084/- in the previous year. There is a decrease in the fall of revenue under this item and this is mainly due to the adverse seasonal conditions and the reduction in the numerical strength of the Pound itself.

total income under this head was Rs.41,000/- as including compensation for the registration of motor vehicles. Only such of the vehicles and animals as were in good condition were registered and licensed.

12. OTHER MISCELLANEOUS ITEMS:- A sum of Rs.70,000/- was realised by the sale of the Evening Bazaar Buildings. The receipts in Sewage farm was Rs.47,561/- by the sale of grass, vegetable and other produce.

From Miscellaneous items, a sum of Rs.3,342/- was realised, making a total of Rs.123,332/-.

D. Contribution & Grants:- A sum of Rs.7,274/- was received under Registration and Surcharge fees.

13. PUBLIC DEBT:-The total Receipts under this head were Rs.3,46,177/- as under :-

1. Deposits - 1,55,314
2. Advances - 1,05,046
3. Stock debits 31,614
4. Model House Fund 1,54 813

The Deposit amount includes the sum of Rs.70,000/- paid the purchaser of the Evening Bazaar buildings and the amount of hire recovered on lorries lent by the Food Supplies Department for fuel supply to contractors; and the value of model houses sold kept in deposit in the first instance and subsequently transferred to "model House Fund".

14. A. ADMINISTRATION.

The expenditure under General Administration was Rs.122,439/- as noted below (includes Establishment, contingency etc.):-

1. Head Office	-	Rs. 41,624

5. Pensionary contribution and Gratuities.	-	15,000

15. B. PUBLIC SAFETY.

1. Street Lighting - Rs.46,050/- was paid for street

lighting charges during the year. At the beginning of the year, there were 1914 ordinary lights, 289 lights which had been disconnected during war time were restored, during the year. The number of Ornamental and cluster lights on which the Municipality is paying Royalty was 48 and 2 respectively.

16. FIRE PROTECTION:- Government contemplated installing fire-fighting units in Mysore city and asked the opinion of the Council with regard to meeting the charges thereon. The Council pleaded their inability to pay the initial and recurring expenditure. They were however agreeable to pay the hire charges. Final orders of the Government have not yet been received in the matter. There were a few minor fire accidents last year in Old Agrahar and near Subbarayanakere and in Dodpet. The Fire Brigade of the Railway department promptly attended to put down the fire.

During the year, 2083 stray dogs were destroyed.

17. PUBLIC WORKS CARRIED OUT BY THE MUNICIPAL ENGINEERING DEPARTMENT.

The Municipality has maintained its own engineering section to carry out the public works relating to the Municipality and hence the Public Works Department is not entrusted with any civil work relating to the Municipality. The expenditure on public works carried out by the civil Department during the year amounted to Rs.334,909/- as against Rs.256,212/- in the previous year.

PUBLIC HEALTH.

18. PUBLIC HEALTH.

The Health Officer was in direct charge of the Health Department of the Municipality during the year under report as before, and the conservancy and sanitary arrangements were looked after by him with the help of the subordinate staff. There was one Health Officer, one Assistant Health Officer and 7 Sanitary Inspectors and 14 Assistant Sanitary Inspectors and 4 Overseers.

The President inspected the City frequently with the Health Officer and the Municipal Engineer and gave suitable instructions with regard to the improvement of the sanitation, removal of rubbish, destruction of dogs, cleansing the Market etc., The Municipal Councillors also as usual went on Health rounds every Sunday in the Mohalla, and made useful suggestions for the improvement of the sanitation. Prompt action was taken on them. The Sectional Officers also accompanied the Councillors and made a note of their suggestions. The intensive cleaning drive started 2 years back is also being continued and the worst localities are being attended to systematically.

Except for sporadic cases of small pox, diptheria and plague, the state of public health was generally good. By taking prompt and intensive vaccination, inoculation and cyanogasing work in affected localities, by the employment of extra gangs wherever necessary the several epidemics were brought under control.

Action is being taken for the appointment of special Sanitary Police to prevent commission of nuisance in the city.

The total expenditure under 'Hl.Health Office' was Rs.16,995/-. During the year, sanction was accorded to the proposal of the Council for the revision of the scale of the pay of the Head Clerk from Rs.40-2-50 to 50-2-60 and the for the appointment of a steno-typist on Rs.40-2-50 in consideration of the increasing work of this department.

19. CONSERVANCY AND SANITATION.

There were 724 sweepers and scavengers at the beginning of the year. 60 additional sweepers were sanctioned in Government Order No.L.6603-10/M1.11-45-48 dated 11-1-46 in view of the expansion of the City and increasing work. It is reported that there is still need for the employment of more hands to attend satisfactorily to the cleaning work especially in the villages and outlying parts of the city (recently included within Municipal limits) and the congested localities of Mandi and Lashkar Mohallas of the City. This question is being examined. Amenities have been provided to the sweepers by providing them with housing accommodation, granting them the benefit of provident fund and maternity and sick leave, supply of provisions from the Municipal Co-operative stores, grant of loans and the payment of enhanced dearness allowance in addition to the revised grade pay. A literary class is also being held by the Harijan Sevak Sangha for which a monthly grant of Rs.25/- is being paid.

25. TWO THOUSAND THREE HUNDRED AND EIGHT-THREE SAMPLES OF ALL KINDS were examined at the Health Office Laboratory during the year as against 2433 during the previous year; and of these 248 samples of foodstuffs were submitted for analysis under the Mysore Prevention of Adulteration Act, the provision of which are being enforced in the City from June 1934.

During the year, the Laboratory section was equipped with a new microscope and several inoculation kit boxes. Proposals were submitted to increase the staff by sanctioning a Laboratory Attender and a peon. At present there is only one peon doing the Attender's work. As the Laboratory Assistant resigned on 1/7/45 the post is still vacant from then and action is being taken to post a suitable hand in the place.

204 samples of milk, 10 samples of ghee, 25 samples of butter, 7 samples of coffee powder and 3 samples of cream were received for analysis during the year and 92 samples of milk, 8 samples of ghee, 5 samples of butter, 2 samples of coffee powder were found to be adulterated. 80 prosecutions in respect of the adulterated samples were launched and 75 ended in conviction. The fines imposed in these cases ranged from Rs.2/= to Rs.50/= per case, the average fine being Rs.8/= per case. 2 cases ended in acquittal, 5 cases were compounded for Rs.65/= and withdrawn, 3 cases were withdrawn as the parties could not be traced and 38 cases had to be struck off, as the samples had the requisite labels notifying the fact of admixture or received from the Palace Mothikhana. Only 6 samples of ghee were received for analysis from the Palace Mothikhana during the year under the scheme of levying small fees for analysis. A reference was made in this matter for

for sending samples regularly for analysis as in past years. No sample was received from the Hospital during the year or from milk-centre in the City. The percentage of adulterated samples for the year is 43.0 %.

As the Sanitary Inspectors who are the sampling authority in their respective areas, had to attend to epidemic duties during several months, they could not collect more samples of foodstuffs. It is necessary to entrust this work to a whole-time Food Inspector to ensure intensive work being done in this direction.

Water was the commonest adulterant found in all the samples of adulterated milk, the addition of water varying from 13 % to 66 % . Admixture of foreign fats from 32 % to 93 % was found in the samples of adulterated ghee and butter. One sample of butter contained 8 % excessive water incorporated into it. The adulterated samples of coffee contained 8 % and 30 % chicory admixture. The samples examined included samples of milk from milk-shops and coffee clubs, samples of ghee and butter from the several shops in the Devaraja Market and from the Exhibition Coffee club. Many complaints were received as regards bad quality of preparations served in hotels and of grams and flour sold in some shops. Some prepared food samples were received from the Rationing Department but they could not be examined here without necessary authorisation. The advice and kind instructions of the Director of Public Health was sought in the matter. A reference was also made to the District Magistrate for inflicting deterrent fines in cases of adulteration.

1018 samples of water were collected and examined during the year for bacteriological analysis and 82 samples for Chemical examination. These included samples of water from 'Fernhill', Coty, Pond and well

water samples from S.K.Mills, tap water from the Belgula Chemicals and Fertilisers, well water samples from the Palace temples, tap water from Ganjam, Holdsworth Mission Hospital, pond water from Cole's garden, Devikola on the Hills, tap water from t h e Palace on the Hills, tank water from Karanji tank and samples of water collected from Mysore,Horse, Bannimantap, Voddrapalya etc., and from the City Public water supply. 22 samples of water x were collected from houses where cases of Typhoid were reported and 8 samples of water were tested for Cholera. They were all negative. 127 samples of water from the City water supply gave unsatisfactory results of bacteriological analysis. The analysis was repeated in respect of 150 samples till satisfactory results were given. In all such cases the Superintendent, V.V.Water Works, Mysore, was requested to take immediate necessary action to rectify the taps giving unsatisfactory results and to arrange to cleaning and ~~shak~~ chlorinating the overhead tranks in several Mansions. During Birthday festivities, samples of tap water were collected both in the mornings and evenings daily from several Mansions and Lalithamahal and other places due to Cholera situation that existed then. Special collection of water samples and bacteriogical analysis were done during the Dasara season and in connection with the visit of the distinguished guest in August 1945. Systematic collection and analysis of samples of water drawn from several points from Lalithadri Hill to the pump house at Gate at Gate Lodge near Lalithamahal were done and the dosage of chlorination checked at several points. Samples of tap water from Hotel Metropole and other places were tested periodically as per kind advice of the Minister for Public Health. The collection of water, preparation of media and

and sterilisation had to be attended to by the Chemist in the absence of the Laboratory Assistant throughout the year. Samples of water from the wells in the Palace Fort were periodically tested and the wells got chlorinated. 29 wells were got chlorinated during the year The quality of the City public water supply continued to be generally satisfactory.

The working of the Laboratory section was kindly inspected by the President on 3/7/1945. Practical demonstrations in water bacteriology were given to the students of the Medical College in the Laboratory. Large quantities of butter were arranged to be melted and handed over to the village-vendors coming into the City during the Cholera season in July 1945. Large quantities of Cholera vaccine were obtained and distributed as also the inoculationmaterials, peptone media etc., in connection with mass inoculations done in the City. Requisitions for mass vaccinations were also attended to. 1 sample of vomit and 4 samples of motion were sent to the Public Health Institute and the K.R.Hospital for examination. Five papers were contributed to the Mysore State Medical Conference held at Mandya. The Midwifery kits of all the Midwives were checked and fresh articles replenished. The Laboratory furniture was got polished. The Municipal Engineer has been requested to arrange for providing water sinks to the Laboratory benches and for effecting other improvements.

There were 126 rodents received for examination for plague infection during the year as against 336 during the previous year. 17 of them were positive for P.Pestis. Rat-falls positive to plague occured in the Wesley Press, S.K.Mills, Palace Gardens, P.F.T. Sanitorium and the Body Guards premises. Immediate

preventive measures of disinfection, cyanogassing and anti-plague inoculations were adopted at these places. Disinfection and cyanogassing were promptly attended to all all the places where rat-falls were reported from. The Lake View was sprayed with D.D.T. solution.

26. MARKETS AND SLAUGHTER HOUSES:-

The Devaraja Market was under the supervision of the Vice-President and the Vani Vilas, Mandi Mohal Sunnadakere and Krishnamurthypuram under the super-

supervision of the Revenue Officer. Frequent visits were paid by the concerned officers and the Health Officer and necessary instructions were issued to keep them in a good condition. The President also paid several surprise visits to the Markets and gave suggestions for their improvement. A sum of Rs.92884/= was spent for the improvement of the several markets in the City. Charts - placards requesting the public not to spit indiscriminately and not to throw peelings of fruits in several places in the markets. Rotton vegetables and fruits were got distroyed on the spot.

27. MARKET SHOW: The Market show had not been held for a number of years. So it was revived during 45-46. A market show was held during the Dasara festivities on 13th October'45. The stall holders and the several outsiders who supplied fruits, vegetable and flowers to the City responded very enthusiastically and they had brought very fine specimens of all kinds of vegetables etc.; Mr.M.A.Gopalaswamy Iyengar, M.A., B.L., President of the Bangalore City Municipal Council, presided on the occasion and distributed prizes.

TONGA & PONY SHOW: With a view to encourage the maintenance of good public conveyance a Tonga and Pony show was held furing the year and prizes awarded to best Tonga horses.

EXTENSION OF VANI VILASA MARKET: Dharma Prakash V.D.Rajaram Modaliar was kind enough to make a handsome donation of Rs.10,000/= with a desire that the amount may be invested in the construction of shops in a needy locality in the City and the rent realised thereby namely about Rs.100/= a month may be given as donation to the Beggars' Relief Committee. This was thankfully accepted by the Municipal Council and

and the amount supplemented by the Council was utilised for the construction of a row of eight shops on the south-eastern side of the Vanivilasa Market. The Estimates for Rs.23,000/= was sanctioned and the construction of the shops was almost complete at the close of the year.

SLAUGHTER HOUSE: The Construction of the permanent slaughter house at Kesere is under contemplation and the tenders for the work have been submitted to Government for sanction. It is now located in a temporary structure. 72,358 animals were slaughtered in the Slaughter House during the year and the slaughter house inspector attended to the neat keeping of the premises and saw that only health animals were slaughtered. Surprise visits were paid to the slaughter house by the President and the Health Officer and necessary instructions were issued for the surroundings to be kept in a sanitary condition. Temporary electric lights were provided during the year.

28. WATER SUPPLY: As usual the distribution of the supply of water in the city was under the control of the Executive Engineer, Water supply Division, Bangalore. There were 7800 water connections of which 6534 were charged on flat rate system. 691 were charged on excess rate basis and 576 on no-domestic basis. The total demand on account of water charges for the year including arrears. was Rs.1,98,880/=. Of these a sum of Rs.1,51,263/= was collected and Rs.3032/= remitted leaving a balance of Rs.44,588/= at the close of the year. All possible steps are being taken to collect the arrears. A special committee consisting of 12 members with the President as

as the Chairman was constituted by Government to send up proposals forthe adequate supply of water to the city, having the immediate and future necessities of the city in view. The Committee sent up proposals recommending the short range scheme for the improvement of water supply to be taken up immediately at a cost of Rs.6,64,000/= and the Government were pleased to sanction the scheme in their order No.L. 3674-6Ml. 67-45-4 dated 12th November 1945. Government were pleased to order that in view of the slender resourcks of the Municipality ~~xxxxxxxxxxxx~~ they would bear half the cost of the scheme, the other half being met by the Council. As the Municipal Council had no funds ready on hand Government were pleased to advance the sum of Rs.3,17,325/= as loan repayable in 20 annual instalments at 3½ % interest per annum. The work of improvement is under progress.

The following submains and Reservoirs were put up during the year 1945-46 in the City.

	== TOTAL:	34,883/=

29. SEWAGE FARM: Besides growing grass and supplying to the public, special attention was paid to the growth of vegetables both English and Indian under the grow more food campaign. The area of the farm was extended by acquiring the agricultural lands contiguous to it at a cost of Rs.20,787/= The present area ofthe Farm is 350 acres. The total receipts and expenditure of the Farm amounted to Rs.47,574/= and Rs.40,748/= respectively.

The revenue yielding trees such as champak, coconut, mango, tamarind, etc., were maintained well. The dry cattle shed was also popular as usual.

A sub-committee was formed furing the year to devise ways and means for improvement of the Farm in Council Resolution No.575/20. 12. 45 and it met three times during the year and gave valuable suggestions for the improvement of the farm.

COMPOST: Manufacture of compost under the new simple method continued during the year. A sum of Rs.1974/= was realised by the sale of compost. A proposal for the manufacture of dry compost in

in several parts of the City by removing the dry rubbish of the particular localities to these places is under way. This scheme will not only help to more satisfactory removal of rubbish from t h e several Mohallas but the compost prepared will yeild a good revenue besides supplying good manure to surrounding agriculturists.

31. AVENUES AND PUBLIC GARDENS:

These were under the supervision of the Municipal Engineer. The work of planting new trees in the newly laid out extensions is being carried out by the Trust Board Engineer. A sum of R.10,571/= was spent by the Municipality during the year under these heads. Under the grow more food campaign vegetables are also being grown in the Bhudevi Farm - acquired by the Municipality. Owing to the planting of avenues in roads not so far served and the formation of several new extensions, the work of this establishment has very much increased of late. The reorganisation of this establishment will be placed before the Council for consideration.

H. INTEREST ON LOANS: A sum of Rs.25,493/= was paid as interest and annuity during year.

33. F.PUBLIC DEBT: A sum of Rs.60,000/= was repaid during the year. The balance of loan at the end of the year was ~~Rs.668000/=~~ Rs. 651,832/-. If the unexpected expenditure on account of payment of dearness allowance had not devolved on the Municipality, the loan would have been reduced to a great extent.

34. AUDIT OF ACCOUNTS:- AND INTERNAL:-

The system of pre-audit by the Comptroller's Office staff continued during the year. One Senior Auditor with two clerks were working in the Municipality. proportionate cost of their salary being debited to the Municipal Funds. THE BILLS ARE SUBJECT TO PRE-AUDIT. The revenue collections are also checked with reference to the

receipts, khirdies and cash book. The D.C.B. Accounts relating to the Municipal Avenues are now being regularly audited.

The Council sanctioned the appointment of one more hand on 40-3-70 to strengthen the existing audit establishment.

It is necessary that there should be a more thorough concurrent audit of the receipts side so that the accounts may be accurate and to have the defects rectified then and there. The suggestions of the ~~Audit~~ Assistant Comptroller, Mysore Circle will be obtained in this connection. During the year one clerk Venko Balaji Rao of the water Revenue section misappropriated Rs 97-4-0 This was detected and after a careful scrutiny by t auditor of the exact sum misappropriated by the clerk, out of the money received by him on account of water revenue, the amount misappropriated was recovered and the clerk kept under suspension. The matter was investigated in detail and it was proved that the clerk was in the habit of making belated remittances and making temporary misappropriations. He has, therefore, been recommended for compulsory retirement and orders of Government are awaited in the matter.

35. The Audit Committee met once in the year and scrutinised the Engineering Section and Health Section Stores Registers. As a result of the scrutiny they advised the formation of a Central Stores for the Municipality and this subject is under correspondence with the Government.

GENERAL: The President made systematic inspections of the Mohallas in company with the sectional Officers besides surprise inspections

to find out how far the Municipal Executive were vigilant and attended to their duties. He also went on inspections with the Councillors, of the Mohallas on many occasions. Notes of Inspections were forwarded to the sectional Officers for needful action and report and care was taken to see that they were attended to promptly. The several sections of the Office were also inspected and defects notified. The Notes of defects noticed sent to them for instruction and guidance.

The Municipal Council has been strenuously striving to provide all possible civic amenities and maximum Health service and medical relief and other public conveniences.

There was complete cordiality between the President and the Councillors and my sincere thanks are due to them for their continued interest and ready co-operation and valuable suggestions in the smooth working of the Municipality.

The Municipal Staff both executive and clerical evinced keen interest in the work and carried out the instructons promptly.

The Administration of the Municipality was on whole satisfactory.
